

DKA Dikson Keratin Action is an innovative treatment containing organic, bioactive keratin which restructures the hair leaving it full of body, soft and shiny.

DKA NOTICEABLY REDUCES HAIR FRIZZ FOR AN EXTENDED PERIOD OF TIME AND HELPS STRAIGHTEN HAIR.

The organic, bioactive keratin maintains the effectiveness of the amino acids and proteins which reconstruct the hair structure and attach themselves to the hair shaft by penetrating the inside of the hair cuticle.

The results are immediately visible and do not disappear over time: DKA makes your hair lustrous, thick, straight and soft, and repairs the hair cuticle, leaving it intact and protected from external agents and pollution.

DKA Dikson Keratin Action can be applied to all hair types: Natural, chemically treated, dyed, streaked or bleached.

IMMEDIATELY VISIBLE RESULTS WHICH DO NOT DISAPPEAR OVER TIME.

FORMALDEHYDE FREE.
