

**Suitable for all hair types, the effects of the treatment do not wear off, but last over a period of time if a few simple rules are followed.**

Wash the hair with DKA Bioactive Keratin Shampoo which is sodium chloride and sulphate free and apply DKA Bioactive Keratin Cream.

It is possible to wash the hair from the day after the treatment.

After the treatment and before the “first shampoo”:

Keep the hair loose, do not tie or clip back, do not plait;

Avoid swimming pools;

Do not use styling products;

Dry the hair with a hairdryer and hairbrush if it gets wet.

**Step One:**

### DKA Bioactive Keratin Shampoo

DKA Bioactive Keratin Shampoo is an organic, bioactive keratin cleanser, formulated to delicately cleanse the hair and maintain the results of the DKA Keratin Treatment. Thanks to its organic, bioactive keratin, DKA Bioactive Keratin Shampoo nourishes the hair and enhances its beauty and silky feel, leaving it soft and shiny. DKA Bioactive Keratin Shampoo does not contain sodium chloride or sulphates, and is suitable for all hair types.

### **Step Two:**

DKA Bio-active Keratin Cream is applied to the hair after the procedure. It is a cream that helps to restore the natural structure of the hair and makes it shine. It is applied to the hair and left on for 10-15 minutes. It is then washed out with water. It is applied to the hair and left on for 10-15 minutes. It is then washed out with water. It is applied to the hair and left on for 10-15 minutes. It is then washed out with water.
