

Aftercare and Styling Products

Brazilian Blowout Acai Hair Care is an aftercare product regimen developed for the unique purpose of extending the life of the Brazilian Blowout Zero Professional Smoothing Treatment.

In addition, these specially formulated smoothing products promote smooth frizz free, radiant hair on a daily basis.

Acai hair care products infuse the hair with an exclusive blend of native smoothing properties derived from a proprietary Brazilian Super-Nutrient Complex.

This complex allows for a continual and cumulative smoothing effect to occur while the hair is washed and styled between professional treatments.
